## About me

I am a linguist who is expanding his abilities into Data Analytics. My strengths include autodidacticism, communication, and simplification of complex ideas. I want to use my abilities in Data, particularly with Natural Language Processing, to make the world a better place. I thrive while working independently and am flexible in complex situations. Furthermore, I am an educator of Spanish, French, Romance Languages, and Linguistics.

## Technical Skills

- R programming, Tidyverse, Tidytext, flexdashboard
- Python, Automation skills, matplotlib, other libraries
